

NINA HESSE

Agile Delivery Lead | Scrum Master | Digital Transformation

London | (+44) 078 8183 6461 | hesse.nina@yahoo.co.uk

PROFILE

Agile Delivery Lead and Certified Scrum Master with 8+ years' experience delivering digital transformation, cloud, DevOps and software delivery programmes across financial services, healthcare, retail, aviation and public sector environments.

Track record of improving delivery predictability, accelerating release cycles and translating strategic objectives into measurable outcomes. Experienced leading Agile delivery across multiple teams, aligning roadmaps and OKRs, strengthening governance and supporting change across complex technology environments.

Partner effectively with Product Owners, engineering leaders and senior stakeholders to improve prioritisation, delivery flow and execution through metrics, forecasting and continuous improvement.

EXPERIENCE

Scrum Master / Agile Delivery Lead – DevOps Programme

London Stock Exchange Group | Jan 2024 – May 2026

- Lead Agile delivery across software and DevOps teams to execute strategic technology roadmaps and business priorities
- Drive quarterly planning, backlog readiness and dependency management to improve delivery predictability
- Partner with Product Owners and engineering leadership to align OKRs, capacity and investment priorities
- Establish delivery governance and outcome-based reporting using flow, velocity and forecasting metrics
- Remove systemic blockers and improve team effectiveness through coaching and continuous improvement
- Support release governance and CI/CD adoption to accelerate delivery and reduce operational friction

Key Achievements:

- Increased delivery predictability through governance, forecasting and delivery metrics

- Improved stakeholder confidence through transparent roadmap and performance reporting

Digital Scrum Master – Tech Accreditation

Legal & General | Aug 2022 – Dec 2023

- Enabled delivery across multiple Agile teams supporting enterprise technology transformation
- Introduced delivery planning and forecasting practices to strengthen execution and prioritisation
- Facilitated cross-functional alignment between business, product and engineering stakeholders
- Embedded Agile governance and change practices to improve delivery maturity
- Drove continuous improvement initiatives focused on flow efficiency and team performance

Key Achievement:

- Accelerated delivery throughput by 25% through improved planning, facilitation and execution discipline

Engagement Manager – Cloud & Infra Services

Capgemini | Jan 2020 – Aug 2022

Managed client delivery across transformation programmes with responsibility for delivery planning, stakeholder governance, commercial awareness, forecasting support and delivery performance.

Client: Royal Mail – IAM Programme

- Directed client engagement and coordinated delivery across multiple stakeholders and suppliers
- Introduced governance frameworks and reporting mechanisms to strengthen delivery control

Achievement: Enabled successful programme approval and strengthened stakeholder confidence.

Client: Bupa – Cloud Migration

- Led planning and execution across migration workstreams balancing cost, delivery and business priorities
- Supported forecasting, prioritisation and cross-functional decision making

Achievement: Delivered within budget and reduced operational expenditure by 30%.

Client: easyJet – Digital Safety Programme

- Oversaw delivery of compliance-led technology initiatives across business and technical teams
- Supported roadmap execution and organisational change activities

Achievement: Reduced delivery lead time by 25%.

Client: Barclays – DevSecOps Transformation

- Supported adoption of modern engineering practices and delivery governance models
- Improved collaboration between development, security and operations teams

Achievement: Improved release quality and reduced defect rates by 15%.

Project Manager – ServiceNow Transformation

Marks & Spencer PLC | May 2018 – Dec 2019

- Led end-to-end delivery of ServiceNow implementation aligned to business and operational objectives
- Managed programme governance, stakeholder engagement and delivery planning
- Introduced iterative delivery practices to improve speed and business adoption
- Oversaw progress reporting, issue resolution and implementation readiness

Key Achievement

- Delivered on time and within budget while achieving 95% stakeholder satisfaction

Scrum Master

Optisource Technology Solutions | Apr 2017 – Mar 2018

- Introduce Scrum and Kanban frameworks, coaching development teams and stakeholders in Agile adoption
- Facilitate retrospectives and training sessions, embedding a culture of continuous improvement
- Partner with business owners to align delivery priorities to value outcomes

Key Achievement: Increased team productivity and collaboration by 30% within three months.
